

NETWORK NOTICE
TAC FOR ISSUANCE OF TECHNICALS
10/06/2025

Recipients: Issuance Team, Sales Managers, and Franchisees

Subject ⚠ Mandatory Attendance – Technical Issuance Training

Dear Representative

The Technical Issuance Training is mandatory and takes place biweekly. During the sessions, updates on processes, systems, and production are shared, and it also serves as a space for alignment and networking among professionals.

This training is intended for those responsible for requesting the reproduction of parts (technicals) in cases of delivery errors—whether from the factory or the store. As this is a sensitive topic, the franchisor invests in this meeting to ensure standardization, close communication, and prevention of recurring errors.

Please note that absence may be considered a serious violation, as attendance is monitored.

👉 If you are not yet part of the **TECHNICAL ISSUANCE TAC** group, please request inclusion from the factory administrator to receive the schedule and access.

We count on your participation in the upcoming sessions!

Sincerely,

International Showroom Management/ Training Team
